Our Reference: Staircase/Letter

Dear Resident

### **Replacement of concrete staircase.**

I am writing to inform you that the concrete stairs on the South end of your building are going to be being replaced.

This will involve demolishing the existing stairs, some of the brickwork on the landing and casting new reinforced concrete steps.

The contractor that will be carrying out this work on our behalf of the Royal Borough is TUC Construction Ltd and they will be starting on **Monday 25th September 2023 for approximately four weeks.**

During this period, all residents will be required to use the stairs on the North end where the bins will be temporarily located.

If you experience any problems whilst the works are in progress, please call the Project Manager, Andy Eglinton (mobile 07805 706345), who will liaise with the contractor.

Apologies, in advance for any disruption that this may cause you.

Yours sincerely,

Pat Coyle  
Planned Works Manager
